### Advanced Order Management

OUR PRODUCTS

Are you or your customers tired of trying to determine which sales orders to ship and how best to allocate backorders? **Advanced Order Management** gives an overall view of your shipping situation, ranking orders by fill rate, ship date, customer, and a variety of other qualifications. Releasing blocks of orders and backorders is as easy as two clicks! Contact your dealer for more information and to arrange a demo.

**CADACUS, INC.**  
**SOLUTIONS FOR SYSPRO™**

As you are looking for Solutions to your SYSPRO™ needs, there may be other choices, but ask them if they have been working exclusively with SYSPRO™ since 1991. Ask them if they use the same NetExpress development system and tools SYSPRO uses. Very few other companies can say yes to both answers, but we can!
