Vocal tuner & Song maker - Volmix is a dynamic and versatile voice tune editor app available on the App Store, offering a plethora of features for both budding and seasoned musicians. Designed exclusively for iPad, it sits at #61 in the Music category, boasting an impressive rating of 4.4 stars from over 10,000 reviews. This free app, developed by Gototop LTD, is equipped with in-app purchases to enhance the user experience.

VOLMIX allows users to craft unique songs and melodies with ease, providing a range of styles from rap to pop. The app comes with an array of sound effects and professional sample packs from top DJs, enabling users to mix voices, drums, bass, dub, and melodies to create studio-quality tracks. Users can save and share their creations, astonishing listeners with their musical talents.

The app caters to various music genres, including hip-hop, RnB, deep house, trap, disco, rap, techno, and many more. Its key features include voice tune, intuitive controls, 3D digital sound effects, DJ sonic tricks, high-pitch sound intensity, bassline melodies, and drum sets & percussions.

Developers regularly update Volmix, focusing on stability and performance enhancements. They encourage feedback and are committed to improving the app, suggesting that more exciting features are on the horizon. The app also prioritizes privacy, detailing its data handling practices for user transparency.
