How to Build Your Backlink

Begin by creating a free account on Last FM if you do not already have one. Take time to complete your profile thoroughly, as platforms tend to give more visibility to well-developed accounts.

Once your profile is set up, look for opportunities to add links naturally. This could be in your bio, profile description, or within content you publish on the platform. *Always prioritise quality over quantity* — a single well-placed link in valuable content is worth more than dozens of spammy links.

Engage authentically with the community on Last FM. Share insightful comments, create useful content, and participate in discussions. This activity builds your reputation and makes your profile — and its links — appear more trustworthy to both users and search engines.
