DA: 75 | **PA:** 67 | **DR:** 83 | **PR:** 5

Why Use City Search for Link Building?

Securing a link from City Search passes meaningful link equity to your website, strengthening your overall link profile. Search engines like Google use backlinks as a key ranking factor, and links from established platforms carry more weight than those from unknown websites. By building a presence on City Search, you create a natural backlink that search engines can trust.

Boasting a **75 DA** and **67 PA**, City Search ranks as a **moderately authoritative** website. Its Domain Rating of **83** from Ahrefs further confirms the strength of its backlink profile, while a PageRank of **5** indicates how Google historically valued this domain's link structure.

The concept behind backlink building is straightforward — search engines interpret links from other websites as votes of confidence. The more authoritative the linking site, the more powerful that vote becomes. Platforms like City Search, with their established domain metrics and consistent search engine indexation, offer a reliable foundation for building the kind of link profile that supports long-term organic growth.

How to Build Your Backlink

Create your account on City Search and invest a few minutes in building a credible profile. Add a professional description, a relevant profile image, and accurate contact information where appropriate.

When adding your backlink, context is everything. Place your link within relevant content that provides genuine value to readers. Avoid over-optimised anchor text — instead, use natural phrases that describe what users will find when they click through to your site.

After establishing your link, monitor your analytics to track referral traffic from City Search. This data helps you understand which platforms deliver real results, allowing you to focus your link-building efforts where they matter most.

Maximising Your Results

- Pay attention to the platform's terms of service — violating them can result in your profile and links being removed.
- Focus on building genuine engagement on City Search rather than treating it purely as a link farm — authenticity improves both SEO and direct traffic.
- Consider creating content on City Search that complements your main website, providing additional value rather than simply duplicating what you already publish.
- Keep your profile and content updated regularly to maintain the value of your backlink over time.
- Share your City Search profile or content on social media to help search engines discover and index your backlink faster.
