

Cupcake is an active resource focused on a photographer-led archive with many Swedish nature, forest, coastal, rural, travel, and everyday-life images. Review the current asset page and license before using any image commercially, because provider terms and individual-file restrictions can change.

What Cupcake offers

Cupcake is an active resource focused on a photographer-led archive with many Swedish nature, forest, coastal, rural, travel, and everyday-life images. The original list described it this way: “Stunning landscape and nature photography from Jonas Nilsson Lee.”

Best uses

Cupcake is most relevant for Nordic scenery, forests, seasons, rural life, coastlines, travel, textures, and authentic everyday subjects. Search by the subject, orientation, visual style, and required output size rather than choosing an image only because it is free.

Licensing and commercial-use considerations

Cupcake currently describes its images as free for commercial use. Review the current integrity/about information and the individual image page before use, particularly for recognizable people or property.

“Royalty-free” does not automatically mean no-cost, public domain, or unrestricted. Copyright permission also does not necessarily clear trademarks, artwork, private property, publicity rights, or a recognizable person’s likeness.

What to check before downloading

- Open the specific asset page and save its current license or receipt with your project records.
- Confirm whether attribution, modification, an extended license, or an account is required.
- Check restrictions on resale, print-on-demand products, templates, logos, redistribution, sensitive topics, and AI training.
- Verify model and property releases when identifiable people, interiors, artwork, or private locations appear.
- Make sure the resolution, crop, file format, and visual style fit the final placement.

Provider availability, pricing, and terms can change. This overview is a research starting point, not legal advice or a substitute for the provider’s current license.
