

Mazwai has changed substantially from the resource described in the original 2022 list; its current destination focuses on a former curated stock-video destination whose supplied URL now redirects into Magnific's video platform. Review the current asset page and license before using any image commercially, because provider terms and individual-file restrictions can change.

Current status

Mazwai has changed substantially from the resource described in the original 2022 list; its current destination focuses on a former curated stock-video destination whose supplied URL now redirects into Magnific's video platform. The original list described it this way: "Download free creative commons HD video clips & footages."

Best uses

Mazwai is most relevant for AI-assisted and stock-related video workflows, not a direct current source of still stock photography. Search by the subject, orientation, visual style, and required output size rather than choosing an image only because it is free.

Licensing and commercial-use considerations

The current destination focuses on AI and creative video tools rather than the original Mazwai experience. Apply Magnific's current plan and content terms, not legacy Mazwai licensing language.

"Royalty-free" does not automatically mean no-cost, public domain, or unrestricted. Copyright permission also does not necessarily clear trademarks, artwork, private property, publicity rights, or a recognizable person's likeness.

What to check before downloading

- Open the specific asset page and save its current license or receipt with your project records.
- Confirm whether attribution, modification, an extended license, or an account is required.
- Check restrictions on resale, print-on-demand products, templates, logos, redistribution, sensitive topics, and AI training.
- Verify model and property releases when identifiable people, interiors, artwork, or private locations appear.
- Make sure the resolution, crop, file format, and visual style fit the final placement.

Provider availability, pricing, and terms can change. This overview is a research starting point, not legal advice or a substitute for the provider's current license.
