

PikWizard is an active resource focused on photos, video, PNGs, and templates, with free and sponsored or premium results. Review the current asset page and license before using any image commercially, because provider terms and individual-file restrictions can change.

What PikWizard offers

PikWizard is an active resource focused on photos, video, PNGs, and templates, with free and sponsored or premium results. The original list described it this way: “Stunning library of over 1 million stock images and videos. Royalty free and safe for commercial use, with no attribution required.”

Best uses

PikWizard is most relevant for websites, brochures, presentations, editorial layouts, video, and projects needing several visual formats. Search by the subject, orientation, visual style, and required output size rather than choosing an image only because it is free.

Licensing and commercial-use considerations

PikWizard's standard license permits listed commercial uses but prohibits stock redistribution, standalone/template resale, AI training, trademark use, and several sensitive uses. Its terms apply to free as well as paid content.

“Royalty-free” does not automatically mean no-cost, public domain, or unrestricted. Copyright permission also does not necessarily clear trademarks, artwork, private property, publicity rights, or a recognizable person's likeness.

What to check before downloading

- Open the specific asset page and save its current license or receipt with your project records.
- Confirm whether attribution, modification, an extended license, or an account is required.
- Check restrictions on resale, print-on-demand products, templates, logos, redistribution, sensitive topics, and AI training.
- Verify model and property releases when identifiable people, interiors, artwork, or private locations appear.
- Make sure the resolution, crop, file format, and visual style fit the final placement.

Provider availability, pricing, and terms can change. This overview is a research starting point, not legal advice or a substitute for the provider's current license.
