

Startup Stock Photos (Squarespace) is an active resource focused on free startup, office, desk, device, design, and technology photography. Review the current asset page and license before using any image commercially, because provider terms and individual-file restrictions can change.

What Startup Stock Photos (Squarespace) offers

Startup Stock Photos (Squarespace) is an active resource focused on free startup, office, desk, device, design, and technology photography. The original list described it this way: “Stock photos for startups and tech related businesses.”

Best uses

Startup Stock Photos (Squarespace) is most relevant for startup websites, SaaS pages, coworking stories, app mockups, entrepreneurship articles, and office-themed campaigns. Search by the subject, orientation, visual style, and required output size rather than choosing an image only because it is free.

Licensing and commercial-use considerations

The provider presents its images as free, but review its current FAQ and asset terms rather than relying on the old aggregate article’s wording. Check brands, screens, and recognizable people before commercial use.

“Royalty-free” does not automatically mean no-cost, public domain, or unrestricted. Copyright permission also does not necessarily clear trademarks, artwork, private property, publicity rights, or a recognizable person’s likeness.

What to check before downloading

- Open the specific asset page and save its current license or receipt with your project records.
- Confirm whether attribution, modification, an extended license, or an account is required.
- Check restrictions on resale, print-on-demand products, templates, logos, redistribution, sensitive topics, and AI training.
- Verify model and property releases when identifiable people, interiors, artwork, or private locations appear.
- Make sure the resolution, crop, file format, and visual style fit the final placement.
