

Free Nature Stock is an active resource focused on authentic, non-AI nature photos and videos, including landscapes, wildlife, flowers, mountains, and night skies. Review the current asset page and license before using any image commercially, because provider terms and individual-file restrictions can change.

What Free Nature Stock offers

Free Nature Stock is an active resource focused on authentic, non-AI nature photos and videos, including landscapes, wildlife, flowers, mountains, and night skies. The original list described it this way: “Stock photos of nature only, updated daily.”

Best uses

Free Nature Stock is most relevant for outdoor brands, environmental content, travel features, wallpapers, nature backgrounds, and seasonal campaigns. Search by the subject, orientation, visual style, and required output size rather than choosing an image only because it is free.

Licensing and commercial-use considerations

The provider states that its downloadable photos and videos are CC0, may be used commercially, and do not require attribution. Check the current terms and the page for the specific asset.

“Royalty-free” does not automatically mean no-cost, public domain, or unrestricted. Copyright permission also does not necessarily clear trademarks, artwork, private property, publicity rights, or a recognizable person’s likeness.

What to check before downloading

- Open the specific asset page and save its current license or receipt with your project records.
- Confirm whether attribution, modification, an extended license, or an account is required.
- Check restrictions on resale, print-on-demand products, templates, logos, redistribution, sensitive topics, and AI training.
- Verify model and property releases when identifiable people, interiors, artwork, or private locations appear.
- Make sure the resolution, crop, file format, and visual style fit the final placement.

Provider availability, pricing, and terms can change. This overview is a research starting point, not legal advice or a substitute for the provider’s current license.
