

Capturing visitors **before they leave** your site forever using smart behavioral triggers.

\$200 - \$350 Duration: 2 - 4 Hours

Don't Let Them Ghost You

70% of visitors who leave your site will never return. Exit-intent technology detects when a user's mouse moves to close the tab and triggers a last-second offer to keep them engaged.

Whether it's a discount code or a lead magnet, this is your final chance to convert a visitor into a lead.

System Logic

Smart trigger

Detects mouse velocity and direction towards the browser bar (Desktop) or back button (Mobile).

Offer Delivery

Seamlessly delivering a coupon or PDF guide immediately upon sign-up.

CRM Sync

Pushing the captured email directly to your marketing list tagged as "Exit Intent Saved".
