

Four professionally written blog posts per month. AI draft ? human edit ? published.

\$350 - \$550 / Month Typical Monthly Work: 4 - 6 Hours

Fresh Content, Every Month, Without the Hassle

Search engines reward sites that publish consistently. The Monthly Content Pack delivers four professionally written blog posts per month — AI-drafted, human-edited, keyword-targeted, and published directly to your site. You stay visible without lifting a finger.

Each post is optimized for a specific keyword cluster, internally linked to your service pages, and formatted with proper headings, meta descriptions, and Open Graph tags so it performs from day one.

Monthly Deliverables

4 Blog Posts

600-1,200 words each, targeting long-tail keywords in your niche. AI-drafted, then edited by a human writer for tone and accuracy.

SEO Optimization

Each post includes keyword-targeted title, meta description, heading structure, internal links, and schema markup.

Published & Indexed

Posts are formatted, published to your CMS, and submitted to Google for indexing — no action required on your end.
