

Identifying and **disavowing toxic backlinks** from spam sites that hurt your rankings.

\$250 - \$550 Duration: 3 - 6 Hours

Break the Glass Ceiling

If your site is hitting a "glass ceiling" or suffering a traffic drop, bad backlinks might be the anchor dragging you down.

We perform a forensic audit of your backlink profile, identify specific toxic domains, and properly file a Disavow request with Google to tell them to ignore the spam.

Cleanup Process

Profile Scrape

Aggregating backlink data from multiple commercial tools to get the full picture.

Manual Review

Human verification of "toxic" flags to ensure we don't accidentally remove good links.

Google Submit

Formatting and uploading the official Disavow file to Google Search Console.
